

HACKER PROTOCOL BOOTCAMP (HPB)

Overview

Bootcamp ID: bc_1775270338500

Level: Beginner

Duration: 6 weeks

Price: Free

Status: Active

Hacker Protocol Bootcamp (HPB) teaches beginners to think like hackers — covering networking, Linux, web, and social engineering with hands-on labs and CTFs.

Structure

5 Modules (Phases), 18 Rooms total. Each room represents one live session.

Module 1: The Hacker Mindset & Learning Path (2 rooms)

Module 2: Computer Networking Foundations (3 rooms)

Module 3: Linux & Terminal Mastery (4 rooms)

Module 4: Web & Backend Systems (5 rooms)

Module 5: Psychology & Social Engineering (4 rooms)

Session Design

Each session includes: 1. Intro (5 min) 2. Concept delivery (20–30 min) 3. Live demo / lab (15–20 min) 4. Q&A; (10 min) 5. Assignment / reading

CP Rewards

Each room awards CP (minimum 250). Harder rooms give more.

CTF per module: 500 CP | Full module bonus: 750 CP

Admin Checklist

- Set meeting links per room - Assign CP rewards - Enable Bootcamp Started - Unlock modules and rooms progressively - Release quizzes after each session
